

Clinical SOP & Human-in-the-Loop (HITL) User Guide

Doc Ref: SOP-UM-2026-012	Owning Dept: Utilization Management Operations	Effective Date: April 1, 2026	Status: ACTIVE OPERATING STANDARD
-----------------------------	---	----------------------------------	--------------------------------------

1. Triage Queue Workflows & Decision Protocol

QUEUE NAME	MODEL CONFIDENCE	ASSIGNED REVIEWER	OPERATIONAL ACTION REQUIRED
Expedited Sign-Off Queue	≥ 0.90	UM Registered Nurse	1. Click criteria checklist line. 2. Confirm auto-scrolled yellow highlighted sentence. 3. Click " Approve & Submit " (Target touch-time: < 30s).
Manual Exception Queue	< 0.90	Senior UM Specialist / MD	1. Inspect amber highlighted missing criteria tag. 2. Issue automated Request for Information (RFI) to provider clinic OR route to Medical Director for Peer-to-Peer review.

2. Discrepancy & Human Override Logging

Whenever a nurse overrides an AI recommendation (e.g. marking a criterion from MET to NOT_MET), the user must select a mandatory override reason tag (OCR_DEGRADED, TEMPORAL_AMBIGUITY, POLICY_MISMATCH). Data is piped to Label Studio for continuous active learning.

3. Clinical Operations Training Sign-Off

ROLE	OPERATIONS LEAD	TRAINING CERTIFICATION	DATE
UM Nurse Supervisor	Deborah Miller, BSN, RN	50 Pilot Nurses Certified on SMART-on-FHIR Split-Screen	2026-03-30
Director Clinical Operations	James Theriot, RN, MHA	Operational SOP Enforced across Regional Pods	2026-03-31
